Education

Bicol University Polangui, PH
Bachelor of Science in Computer Engineering. Cum Laude June 27, 2025
Relevant Coursework: Web Development, Machine Learning, Embedded Systems, Operating Systems, Networking

Aroroy National High School Aroroy, PH
With Honors July 16, 2021

Experience

Armlink Computer Center Inc. San Pedro, PH
Technical Support Intern June 2024 – July 2024

- Troubleshot and maintained CCTV systems, ensuring continuous security coverage with minimal downtime.
- Configured and administered IP addresses, switches, and firewalls, improving network reliability and security.
- Installed, upgraded, and optimized operating systems, enhancing system performance and user efficiency
- Documented and tracked computer serial numbers, strengthening asset management and audit accuracy

Academic Experience

Thesis: Convolutional Neural Network-Based Self-Driving Wheelchair
Developer

- Maximized the power of CNN for an autonomous wheelchair with 80% accuracy.
- Utilized Scrum Methodology for an effective team development for system testing and debugging.

IJJER Ordering and Inventory Management
Developer

- Achieved 100% completion rate of the system with frontend using HTML, CSS, and JavaScript and backend features involving SQL applying CRUD.
- Documented using Microsoft Word and Excel.
- Designed and developed according to SDLC framework.
- Debugged and tested until 100% completion is achieved.

Training

NCIII Java Programming (TESDA)
Trainee

- Learned and solidified Java fundamentals.
- Introduced to Object-oriented Programming.
- Enhanced ability to solve problems, debug, understand and improve existing code.

Skills & Interests

- **Tech Stack**: HTML, CSS, JavaScript, Python, and Java
- **Language**: Proficient in English and native in Filipino
- **Tools**: VS Code, Eclipse, NetBeans, Android Studio, JIRA, Microsoft Word, Excel, and Powerpoint
